Summary

With my Bachelor's in Electrical Engineering from University of California, San Diego (USA) and my Master's in Artificial Intelligence from the Università di Bologna (Italy), I deliver innovative, user-centric solutions with a focus on mathematical rigor. I am comfortable building web applications end-to-end. I specialize in Computer Vision, Large Language Models (LLMs), and Industry 4.0. Equally effective working independently or as part of a team, I am seeking a combined leadership and research role starting Fall 2026.

Skills

Languages & Frameworks

Python, C++, ROS2, PyTorch, Keras, Google Cloud, Ollama, Home Assistant, Full-stack development

Languages

English — Native
French — Native
Italian — C1

Nationality

American (USA) & French

Experience

Sana Health and Fitness

Innovative Sport Coaching

Bologna, Italy

Dec 2024 – Jun 2025 (6 months)

End-to-end computer vision exercise identification and logging, with user identification and cloud deployment for a commercial gym.

Eurazeo Global Investor SAS

AI Technical Due Diligence Consultant

Paris, France

May 2025 (1 month)

Conducted technical due diligence of an AI-powered sports analytics company for a private equity acquisition, evaluating computer vision pipelines, prediction models, and infrastructure scalability.

UniBo Motorsport

Driverless AI Division Manager

Bologna, Italy

Sep 2023 – Sep 2025 (2 years)

Fully autonomous Formula 1 competitions at the university level, ranked #1 in the world. 250+ members. Led the AI division designing perception, planning, and control systems for a driverless racecar.

Scripps Machine Listening Lab

Dolphin and Whale Researcher

San Diego, USA

Jun 2022 – Aug 2022 (3 months)

Created an underwater acoustic dataset for marine mammals then trained a PyTorch classifier to estimate species abundance across the world's oceans.

Scripps Institute of Oceanography

Marine Bioacoustics Laboratory IT Supervisor

San Diego, USA

Oct 2019 – Dec 2022 (3 years)

Managed 10 Gb fiber-optic network servers. Transitioned fifty users from in-office to remote during the COVID-19 crisis. Designed, deployed, and repaired computer systems.

Jacobs School of Engineering, UC San Diego

Instructional Assistant in Electrical Engineering

San Diego, USA

Jan 2021 – Apr 2021 (3 months)

Taught Assembly Language, CPU Design, and Branch Prediction to undergraduate students.

Education

Master's Degree, Artificial Intelligence 110/110	2026
Alma Mater Studiorum — Università di Bologna, Italy	
Bachelor's Degree, Electrical Engineering	2023
University of California, San Diego, USA	
International Baccalaureate Diploma	2019
San Diego High School, USA	

Awards & Interests

Awards

- Eagle Scout — Boy Scouts of America
- FIRST® Robotics Competition
- Ruck Leadership Institute
- 3rd Place — F1Tenth Milan International Race

Interests

- Piloting
- Surf & Skate
- Urban Design
- Impressionist Artwork
- Astronomy
- Backpacking
